## SUMMARY

Versatile professional skilled in **graphic design, UI/UX, blockchain, and community management**. Experienced in leading hackathons, managing coding clubs, and delivering impactful visuals. Proficient in **AI tools, ATS optimization, event coordination, and technical content creation**. Strong leadership, communication, and problem-solving abilities.

## EDUCATION

**University of Engineering and Management, Jaipur** — Jaipur, India
*Bachelor of Computer Applications (BCA)* — *Aug. 2023 – Expected June 2026*

## LEADERSHIP & COMMUNITY INVOLVEMENT

**TechMasters Community** — Dec. 2024 – Present
*Co-Founder* — *Hybrid*
- Lead initiatives in **design, content, and technical operations** for community growth.
- Created digital assets, posters, and promotional graphics for workshops, hackathons, and campaigns.
- Collaborated with tech and content teams to ensure consistent and impactful communication.

**Code For Bharat Hackathon** — Jan. 2025 – Present
*Lead Organizer* — *Hybrid*
- Organized and led a national-level hackathon with **10,000+ participants across India**.
- Directed end-to-end event management including sponsor relations, mentor coordination, and participant engagement.
- Oversaw branding, design, and promotional campaigns ensuring high visibility and professional presentation.
- Built and managed community presence on LinkedIn, Instagram, and WhatsApp to maximize reach and engagement.

**Algo Club** — Sep 2024 – Present
*Club Manager* — *Hybrid*
- Expanded coding community from 0 to **500+ active members** through peer-learning initiatives.
- Organized 10+ technical workshops and coding challenges with industry mentors improving retention and engagement.

**tecXaro** — Mar. 2024 – Present
*Blockchain Developer (Promoted from Trainee)* — *Rajasthan, India*
- Promoted within 4 months for contributions to blockchain projects enhancing smart contract security and efficiency.
- Supported content team by drafting MoUs, documentation, and professional presentations.

## PROJECTS

**Multi-Chain NFT Claiming System** | *ThirdWeb, Solidity, Node.js, MongoDB* — Ongoing
- Developing a decentralized application (DApp) for secure NFT claims across Ethereum and Polygon.
- Implemented authentication with OAuth, crypto wallets, and QR-based transfers for seamless UX.
- Designed and tested smart contracts ensuring scalability and cross-chain compatibility.

**Smart Resume Analyzer with ATS Grading** | *Python, NLP, Machine Learning* — Ongoing
- Developing an application that evaluates resumes using ATS algorithms and provides optimization feedback.
- Implemented keyword extraction, scoring system, and recommendation engine to enhance ATS compatibility.
- Integrated AI-driven feedback for resume improvement and skill matching.

## TECHNICAL SKILLS

**Languages**: Solidity, C++, HTML, CSS
**Frameworks & Libraries**: Node.js, ThirdWeb SDK, NPM
**Developer Tools**: Git, GitHub, VS Code, Remix IDE, MongoDB
**Creative Tools**: Canva, Figma (Beginner), Microsoft Office 365 Suite, Simulink, Matlab, Google Ai Studio
**Specializations**: Prompt Engineering, ATS Resume Optimization, AI-Assisted Design, Presentation Design

## ADDITIONAL SKILLS

**Creative Skills**: Graphic Design, UI/UX, Video Editing, Content Writing, Creative Writing
**Professional Skills**: Event Planning & Management, Marketing, Leadership, Team Collaboration, Communication
